

METALWORKS
innovation at work

IN-LINE locker

IN-LINE and Cayenne® Lockers

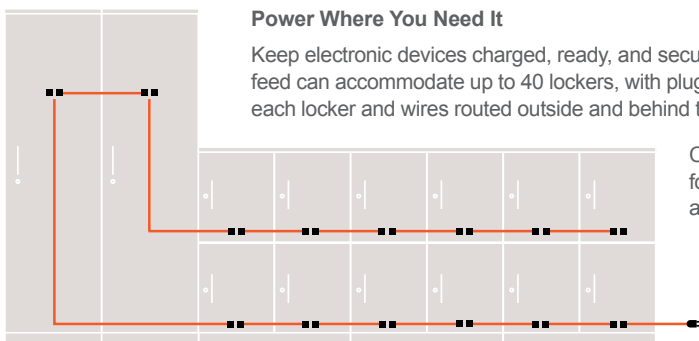

Secure, centralized personal storage that's beautifully designed to complement your work space.

Power Where You Need It

Keep electronic devices charged, ready, and secure. A single power feed can accommodate up to 40 lockers, with plug-in power inside each locker and wires routed outside and behind the cabinets.

GO Keyless!

Durable and flexible, Metalworks electronic locks are easily programmed to either fixed or revolving mode:

Fixed Mode

Once a code is created, that code remains in effect until the user changes it.

Revolving Mode

Also called hotelling or single use mode, the code is cleared after each complete locking cycle.

We've Thought of Everything

- Once the code is entered, the lock is activated by turning the lever
- Runs on 2 AAA batteries (75,000 cycles), accessible from outside the locker
- A supervisor code is included, with programmable re-set
- Easy-to-clean membrane keypad

Integral Label Holder

Specified as an accessory, labels are located at top center of locker doors. Print your own card labels with our online template.

Made in the U.S.A.

World class workmanship and steel construction ensure lasting durability and performance.

Lead with your fronts

Locker doors may be specified in your choice of color, or with wood laminate.

Sixty Standard Colors

Ten each from Allsteel, Herman Miller, Steelcase, Haworth, Knoll, and Teknion. Plus online Industry Favorites and Custom Colors.

Shown with Wilsonart® Fusion Maple laminate doors.
