Cubby Locker 4 door with Embossed label holder

Cubby Locker 8 door

Close Up of Electronic Lock on an "A" Full Pull Front; Hinge Location Right

GO Keyless!

All Metalworks lockers may be ordered to include electronic locks rather than keyed locks. Durable and flexible, Metalwork's electronic locks are easily programmed to either fixed or revolving mode:

Fixed Mode:

Once a code is created, that code remains in effect until the user changes it. To lock and unlock: enter the code and then turn the lever.

Revolving Mode:

Also called hoteling or single use mode, the code is cleared after each complete locking cycle. To lock: enter a code and then turn the lever. To unlock: enter the same code and turn the lever. At this point the lock clears the code and is awaiting new input.

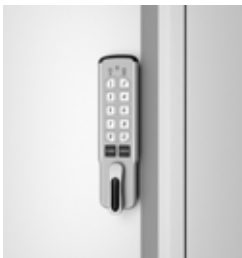

Electronic Lock Features

- Once a code is entered, the lock is activated by turning the lever to the locked or unlocked position
- Runs on 2 AAA batteries (included)
- Operates using a 4-to-8 digit code
- A supervisor code is included
- May be programmed by supervisor as Fixed or Revolving Code
- Programmable reset features
- Easy to clean membrane keypad.
- 25,000 plus cycles; extended battery life reduces replacement and labor/maintenance costs.

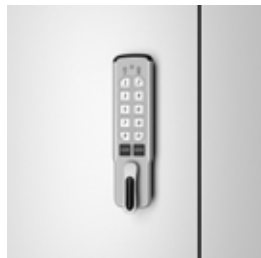

Cubby Locker Features

- Available in 8-door and 4-door configurations
- All metal construction, with metal fronts as standard
- Laminate fronts available as an option
- All doors together hinge either left or right
- Inside depth: 17.410", inside width: 9.830", inside height: 13.985"

Door Front Options:

A: Full Pull with E-Lock

Cubby Locker Construc

- All Metalworks products meet or exceed applicable ANSI-BIFMA standards for durability and safety
- A lifetime warranty ensures long-lasting performance and after-sale support
- Steel frame construction is welded and channels are formed in key areas for strength
- Top, back, side, and center panels are 21 gauge metal
- Leveling glides allow for 7/8" adjustment and are accessible from inside the locker
- Inner top, bottom, and side channels are 18 gauge steel, drawer and door fronts are 20-22 gauge steel
- Shelves are 18 gauge steel, and drawer bins are 22 gauge. Bottom pad is 16 gauge steel
- A IN-LINE lateral file ganging kit may be used to gang two Cubby Lockers together
- 4 door Cubby finish height does not match that of a IN-LINE 2-high lateral file

Options and Accessories

- Embossed label holder: 1" x 2 5/8" card template is available at metalworks1.com
- Interior power outlet: Call sales to have power specified, to be mounted in the back panel inside each individual locker
