

INDUSTRY

COLORS

Updated 8.27.15

In addition to our 60 standard colors, the following popular industry colors are also available for order through Metalworks.

- No added cost
- Standard lead time (occasional restrictions may apply - please call for lead time confirmation)
- No minimum order size
- It's not necessary to exchange paint chip samples or to get your signed approval, as we already know we have a perfect match with the original manufacturer's color.

Simply send MW your purchase order with the paint color name and number identified on this list. We will process your order, confirm the lead time, and send you an order acknowledgement.

Please note: this list is updated periodically. Depending on paint cost and availability that are beyond our control, colors may be added or removed from this list of Industry Favorites.

"<>" Designates colors that have not yet been assigned a Metalworks color number. When ordering these colors please clearly specify both the manufacturer and color name. A MW color number will be assigned at that time.

ALLSTEEL		Allsteel #	MW #	Allsteel #		MW #
