

## Discontinued Standard Colors

The colors listed below were previously included in Great Openings "Standard Colors", but have since been removed from that offering. Consequently these colors are no longer included as standard in CAP, GIZA, or Project Matrix (though they may still be specified - see the instructions below).

The current status of each color is listed in this chart; some are still available to order at standard price and lead-time, and others are now available only as custom colors (see below).

The colors identified as "Ready to order" may still be specified in CAP, GIZA, and Project Matrix by following these steps:

1. Skip over the color option
2. When in the worksheet, type in the color number and description shown in the chart below

Color #	Color Description	Current Status	Price and Lead-Time	Note
0001	Herman Miller Dark Tone	Ready to order	Standard price and lead-time	
0003	Herman Miller Innertone	Ready to order	Standard price and lead-time
